"Goods carried under this transport document are subject to cold treatment for which a fee is being charged. For such Goods, Carrier undertakes to exercise due diligence to provide properly approved containers and temperature measuring and recording devices.

Carrier reserves the right to retain the Goods inside the Container:

- (i) at origin; if between the time the container has been closed by the Merchant and 24 hours prior to the loading on the first vessel the temperature of the Goods has increased or is still out of the agreed protocol; and/or
- (ii) at destination; if at the time of arrival at the port of destination, the sterilization period is due to be completed within a maximum of four days.

Carrier reserves the right to re-start the cold treatment protocol during carriage at its discretion when there is sufficient time to finalize the protocol within a maximum of four days after the arrival of the last vessel, according to the transport plan, to the port of destination.

Carrier reserves the right to change the set temperature in the Container to ensure the timely completion of the cold treatment protocol.

If the Carrier is not able to complete cold treatment of the Goods in accordance with the above, the Merchants remedy (to the exclusion of any other) is, that:

- (i) if the Merchant chooses to complete cold treatment after delivery of the Goods by the Carrier; the Carrier will waive any detention, demurrage and/or storage costs for up to five (5) days; or
- (ii) if the Merchant decides to divert the Goods to a new destination where cold treatment is not required; (a) the Carrier will waive the change of destination charge and freight to such new destination; and (b) the Carrier will compensate the Merchant for the difference in value of the Goods at the original destination and the destination chosen under this item (ii) (values to be determined with reference to relevant source for sound market value of the particular commodity as determined at the discretion of the Carrier).

Merchant agrees to hold harmless and indemnify Carrier for any and all consequences arising from or out of Goods being carried at an agreed temperature lower than the optimal carriage temperature for the goods."
