As a member of the Ocean Carrier Equipment Management Association (OCEMA), Maximum Gross Allowable Cargo Weights <http://www.ocema.org/cwg.htm> are intended only as a general guideline to promote safe and lawful transport practices regarding the maximum weight of cargo that can be loaded into international containers for transport over U.S. roads. Use of this guideline does not in any way eliminate the obligation of the shipper, consignee, motor carrier, or other user to ensure that a particular load meets local, state or federal road weight limits and is otherwise safe and roadworthy for transport within the U.S.

Merchant warrants that it will submit an accurate weight of the cargo which meets the applicable over-the-road weight limitations of the local, state and federal governments as well as the weight limitations of the service providers in the transport chain (including ports and rail). Merchant warrants it is aware that failure will result on additional charges including, but not limited to, rejection, termination, trans-load, scale, additional drayage or haulage, demurrage, detention and/or per diem. Merchant is encouraged to contact Sealand if there are any questions.
